

GEER Budget Narrative

Given the pandemic of Covid -19, the district has assessed that in order to maintain the appropriate class sizes for appropriate social districting it will need to retain teaching assistants in order to assist classroom teachers with instruction. Various teaching assistant were to be laid off given the lack of NYS funding but now can be retained given the GEERS funding.

The teaching assistants work throughout the district to assist teachers in providing in-person instruction to students in small socially distanced sections which is imperative in the reopening of school plan.
